Professional Summary:

- Working in M3BI a Zensar Company as Software Engineer
- 6.8 years of experience in Software Testing & Test Automation with expertise in Selenium-Java, Playwright-TypeScript, and API Automation.
- Strong knowledge of Test Automation Frameworks (Hybrid, BDD, TDD, Page Object Model) and CI/CD integration.
- Proficient in functional, regression, and UI automation with tools like Selenium, Playwright, TestNG, Rest-Assured, Postman, Jenkins, and JIRA.
- Hands-on experience in database testing (MySQL) and Agile Scrum methodologies.
- Skilled in writing & executing test cases, defect tracking, and automation script development to improve efficiency.

Technical Skills:

- **Automation Tools:** Selenium WebDriver, Playwright, Rest-Assured, Postman, TestNG, Cucumber
- **AI Tools:** Github Copilot, Playwright MCP using LLM agents
- **Programming Languages:** Java, JavaScript, Typescript
- **Version Control & CI/CD:** GitHub, Jenkins, Azure DevOps
- **Test Management:** JIRA, Azure Boards
- **Databases:** MySQL
- **Version Control & CI/CD:** GitHub, Azure Pipelines, Jenkins, Azure DevOps
- **Frameworks:** Hybrid, BDD, TDD, Page Object Model (POM)

Work Experience

Software Engineer | M3BI A Zensar Company (Jan 2023 – Present)

- Developed and maintained automated test scripts using Playwright and TypeScript.5
- Automated UI and API testing to ensure high-quality application releases.
- Integrated test execution with Azure DevOps CI/CD pipelines.
- Collaborated with developers to identify defects and improve testing efficiency.

Test Automation Engineer | SIGNANT HEALTH, Hyderabad (Nov 2021 – Dec 2022)

- Designed and executed Selenium-based automation scripts for web applications.
- Developed and maintained TestNG framework for test execution.
- Conducted API testing using Rest-Assured and automated test reporting.

SDET | Lincsoft Solutions Pvt Ltd, Hyderabad (Sep 2019 – Oct 2021)

- Built automation frameworks for functional, regression, and UI testing.
- Implemented Selenium WebDriver with TestNG for test automation.
- Conducted cross-browser testing and database validations.

Achievements

- Received client & management appreciation for automation solutions.
- Actively contributed to test automation strategy and best practices.

Projects Undertaken

1. VialtoDirect:

VialtoDirect is a comprehensive platform focused on TAX, Immigration, and Consulting services across various countries. The application facilitates a streamlined process for employees to file their taxes, complete KYC, and make secure payments. Admins can invite employees, assign custom tax plans, and provide tailored support for different immigration and taxation requirements. The system ensures compliance with global regulations and enhances user experience by simplifying complex processes.

2. Remote Work:

This application is designed to manage remote work requests for employees seeking to work in different countries or states. Employees submit requests for relocation, which are then reviewed and approved by managers after addressing critical factors such as taxability, social security implications, and immigration policies. The system ensures smooth transitions by automating approval workflows and providing visibility into key legal and logistical considerations.

3. Smart Supplies:

Smart Supplies is a logistics management system focused on tracking the creation and distribution of medicinal drugs. The platform monitors the production of drug lots, manages inventory, and tracks the shipping process to ensure compliance with regulatory standards. It provides real-time data on the status and location of shipments, ensuring transparency and efficiency in the supply chain.

3. Insurance Domain:

This application is designed for the insurance industry, managing agent, policyholder, and claims information. It enables various users to maintain records across departments, streamline communication, and generate reports based on different conditions. The platform ensures efficient handling of insurance processes, improving operations, data management, and reporting accuracy.

Education:

2015-2019 B. TECH from **Acharya Nagarjuna University (ANUCET)** in EEE with **74.4%**.

2013-2015 Intermediate in MPC from Sri Chaitanya jr. college with **94.3%** **2012-2013**

SSC from ZPP High school in Cheyyeru with **9.5 CGPA**.

Declaration:

I hereby declare that the above details are true to the best of my knowledge.
